EXPERIENCE

WEB DEVELOPER – CYBERNET

October 2025 – January 2026

- Maintained and shipped features for Cybernet's internal web portal used across departments, ensuring uptime and reliability.
- Diagnosed and resolved bugs in existing modules, reducing friction and improving performance.
- Implemented feature enhancements based on business requirements in a fast-paced environment.

FREELANCE FULL-STACK DEVELOPER

May 2024 – Present

- Built and deployed full-stack websites for paying clients in Pakistan and Oman, handling everything from development to domain setup.
- Managed client relationships directly: gathered requirements, iterated on feedback, and delivered production-ready sites on deadline.
- Designed database-driven systems using SQL and MongoDB for efficient and scalable data handling.

PROJECTS

AZREESHA MANPOWER & VISA CONSULTANCY

Next.js · Tailwind CSS · WhatsApp Integration

- Lead-generation website for a visa consultancy firm. Showcases services and visa categories, with a WhatsApp click-to-chat button for instant client contact. Built with Next.js for fast load times and SEO.

SAIH AL-DUBA

React.js · Tailwind CSS · Vercel

- Company portfolio for an international client. Fully responsive with a service showcase, project gallery, and contact section. Live in production.

KRONOS DB

Rust · Systems Programming

- NoSQL database engine with B-tree and hash indexing, document storage, and write-ahead logging for crash recovery. Includes a custom CLI for complex query execution.
